

Announcing Symphony for WeChat

Symphony and Tencent recently announced their partnership to integrate WeChat with Symphony. Financial service firms can use this integration to interact with Weixin users in China and beyond while meeting critical financial regulatory requirements - including trust barriers, information protection governance, and data sovereignty requirements.

Read more about this new partnership in our [press release](#).

New Innovations for your Digital Workplace

Transform your digital workplace and improve productivity with new Symphony features in our latest release. These updates help you better manage the way you receive notifications and locate the information you need. They also improve speed on both desktop and mobile, and introduce new capabilities to support trust and compliance. Symphony's new features include:

- Clear alerts: Clear notifications from your left navigation all at once.
- Muting: Mute conversations that you no longer wish to track on a daily basis.
- Pinned chats: Pin chats to the top of your chat list to keep important conversations available for easy reference.
- Recommended chat rooms: On the Symphony Desktop application, receive suggestions for relevant chat rooms to join by going to the Network icon and selecting 'Suggested Rooms.' These suggestions are customized for you based on the colleagues you've recently chatted with.
- New apps in Symphony Market: Access two new applications in the Symphony Market:
 - FIS MarketMap Live Charts
 - UBS LiveDesk by UBS AG

Read more about our new features in our [latest blog](#) or visit our [website](#).

Get to Know a Bot: Barclays and Capital Group's BARX Alert Bot

Traders are presented with endless information but often have limited screen space. To address this challenge, Barclays and Capital Group have partnered to revolutionize their intra-trading workflow. The BARX Alert Bot was built to query any stock, highlight discrepancies between a price versus the average, and access an extension application for more information. Users can also subscribe to custom alerts to make trading decisions faster and more accurately. Barclays and Capital Group recently presented a live demo of the BARX Alert bot at Innovate 2019 and won our Innovation Award. Watch the [live demo](#).

Must-See Webinars

Symphony for Incident Management

Tuesday, November 19th at 11am EST/ 4pm GMT

Join our webinar to hear about managing incidents all from one place with seamless Symphony integrations such as ServiceNow, Gitlab, and Jira.

[REGISTER NOW](#)

Getting Started

We host monthly training webinars to provide an overview of the platform and demonstrate use cases for specific roles. View our upcoming webinar schedule & watch past events on demand here.
