

Meetings in Symphony

Immediate, In-Chat, Compliant & Secure

Start Fast, Virtual Meetings in Symphony

Instant compliant & secure voice and video meetings in chat

- **Speak Real-Time** - start an immediate 1-to-1 or group call right from your Symphony conversation
- **Meet Face-to-Face** - start a live video meeting, no additional conferencing software needed
- **Stay Compliant & Secure** - by keeping meetings in your companies' private Symphony environment you maintain info barriers and stay protected by our protocols

Keep Meeting Content Private & Accessible by Compliance

Alleviate Privacy & Security Risks

- All meetings are launched in Symphony chat, therefore all meeting participants are signed into your private Symphony environment with our unrivaled security protocols. This means there can be no “Zoombombing”- no uninvited external participants can break into and listen in on your meeting
- Your internal information barriers/Symphony privacy settings are also maintained, so no unexpected internal participants either

Keep Compliance Standards High

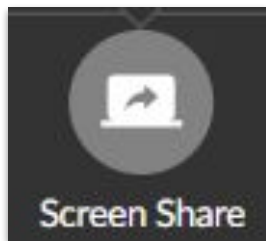

- Meeting content metadata is captured in the Symphony Compliance Portal with all user actions time stamped. This content is available for entitled Compliance Officers export for a full audit trail
- Your firm’s existing Symphony compliance settings extend to your meetings on Symphony

The Features You Need

1-Click Launch

Go from chat to meeting with one click of the phone icon, no switching into conferencing systems

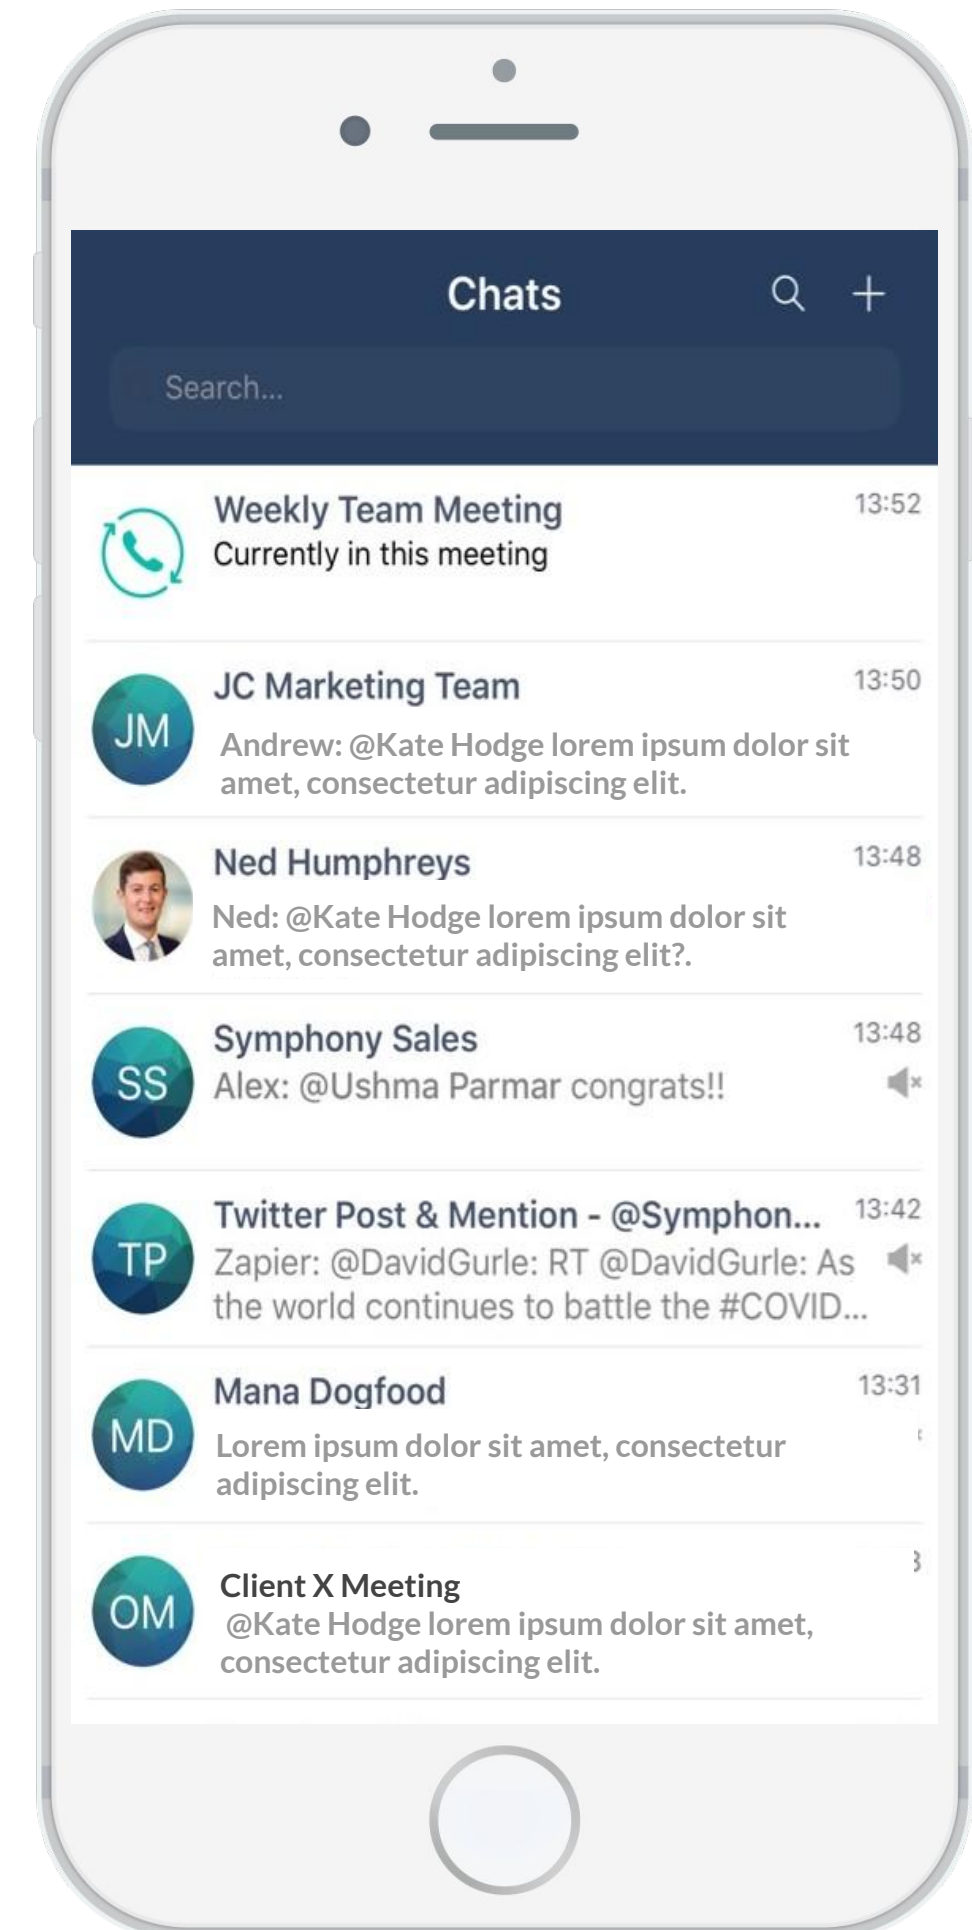

Share Your Screen

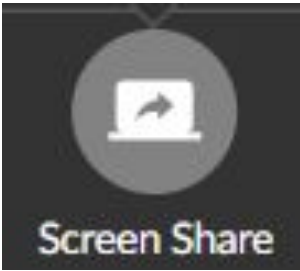

Share your screen and applications with other meeting participants. Application vs. screen sharing allows you to hide your desktop and anything sensitive or personal.

Meet on Mobile

Start or take meetings on the Symphony mobile app to meet wherever you are (full support for iOS or Android.)

Share a Screen, App & Gain Full Chat Context

Choose what you'd like to share

Aster Barua is screen sharing

Microphone, Video, Screen, Chat, People, End Call

Key State: After 10 minutes, screen sharing will stop automatically.

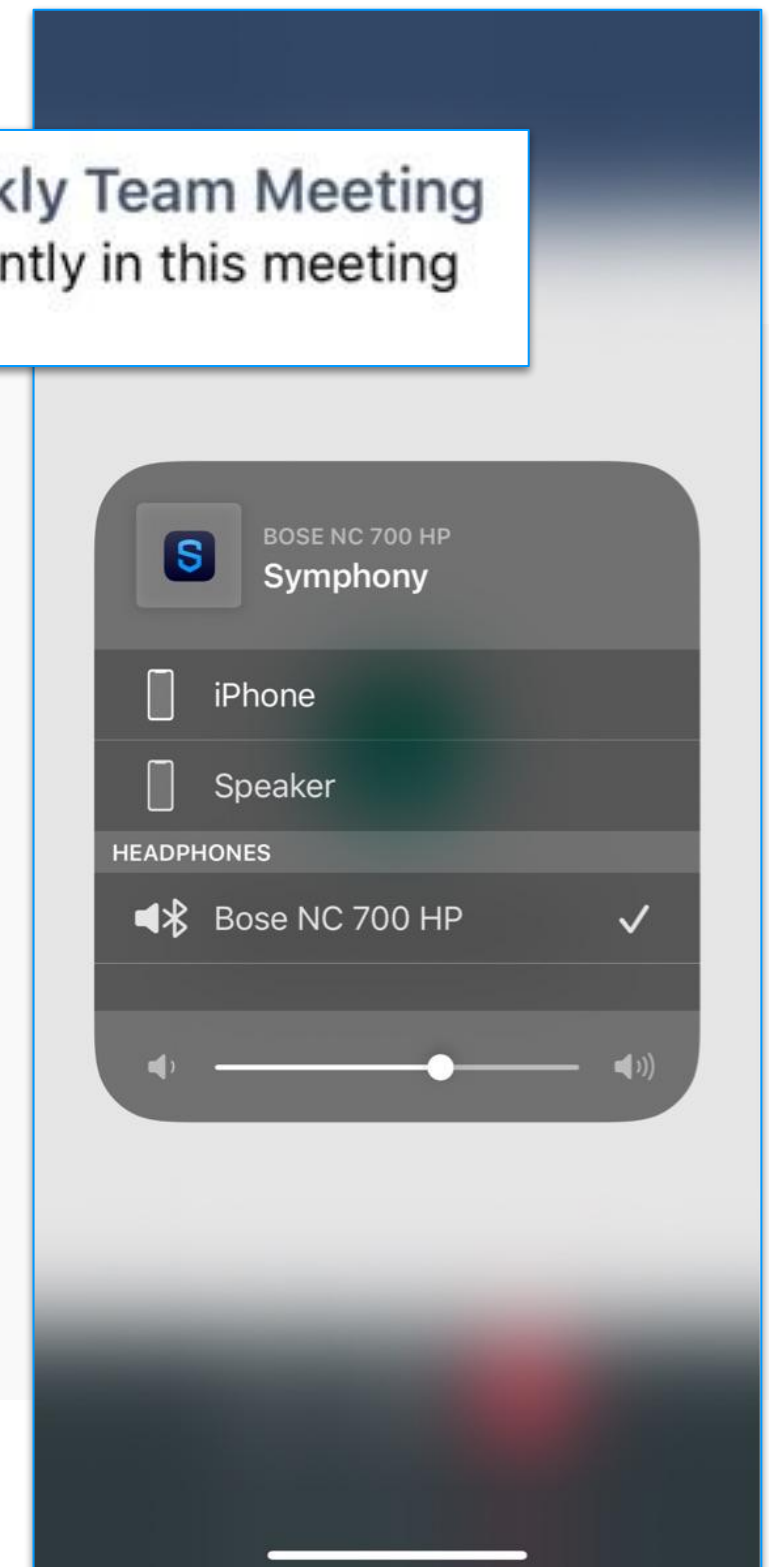

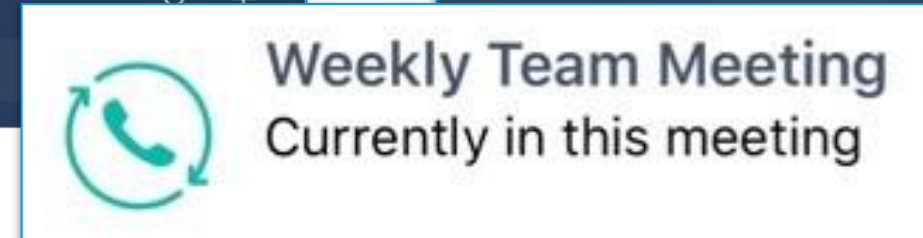

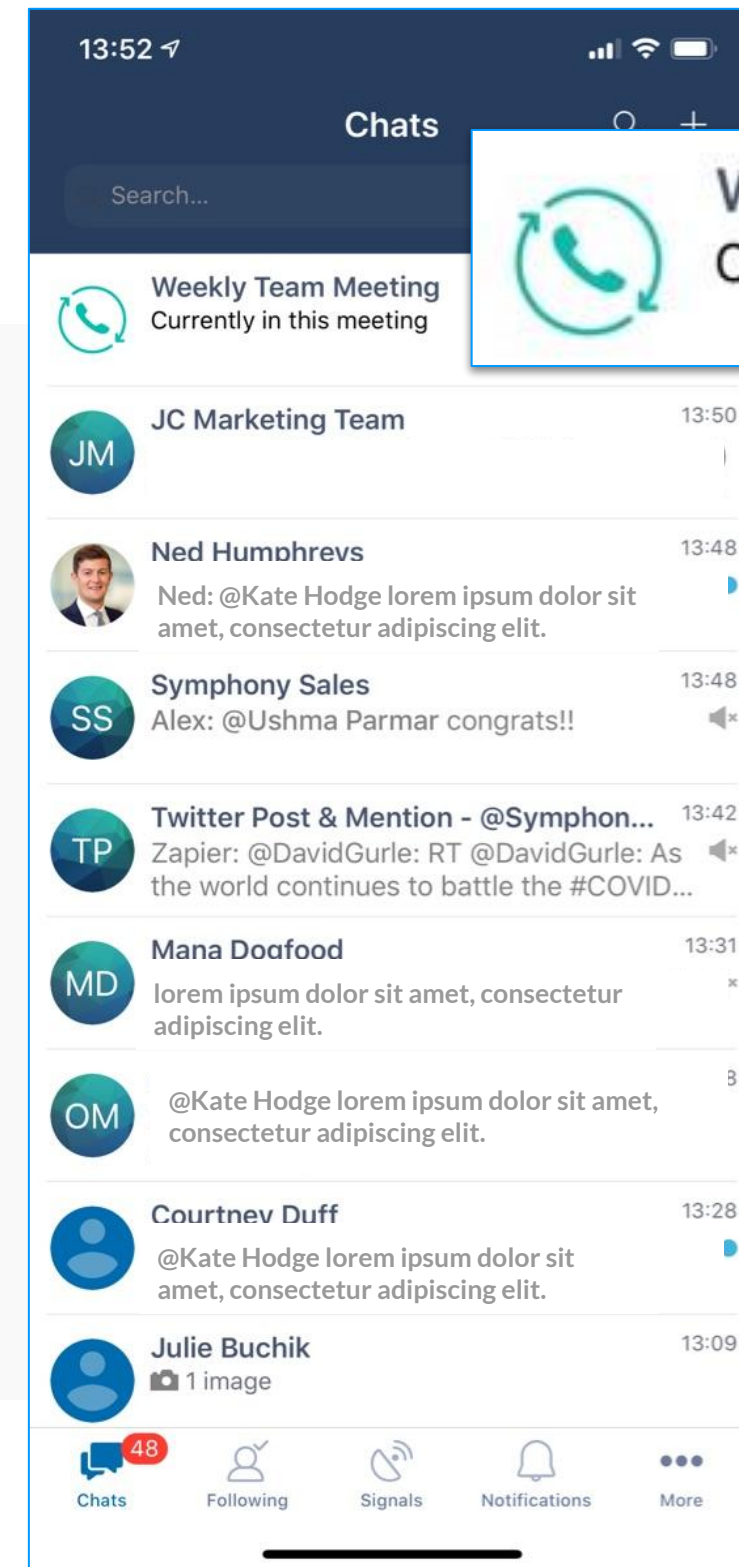

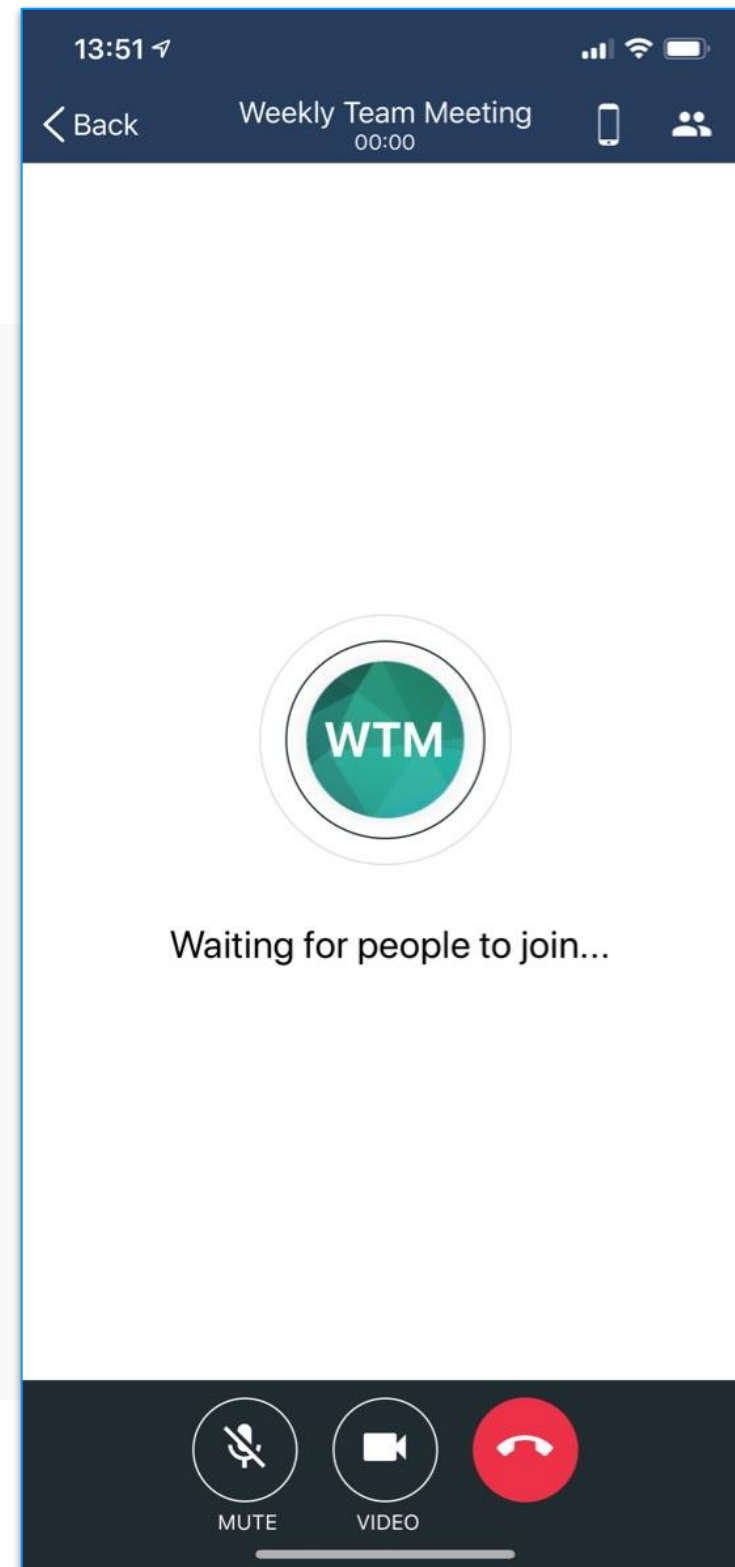

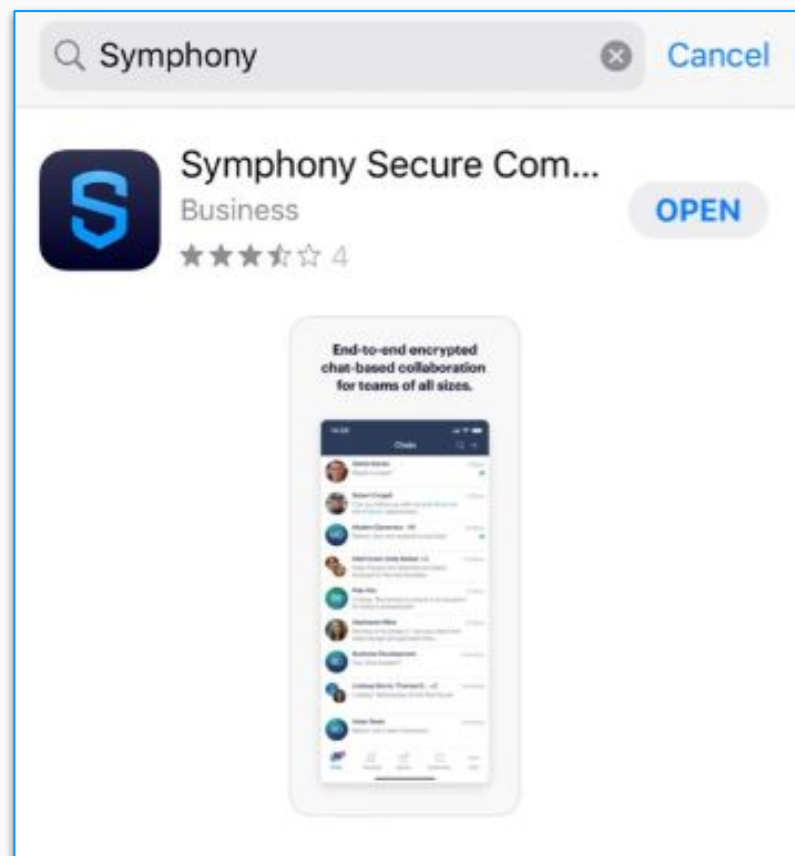

You are sharing your screen on **Symphony**

STOP SHARING

Meet on Mobile

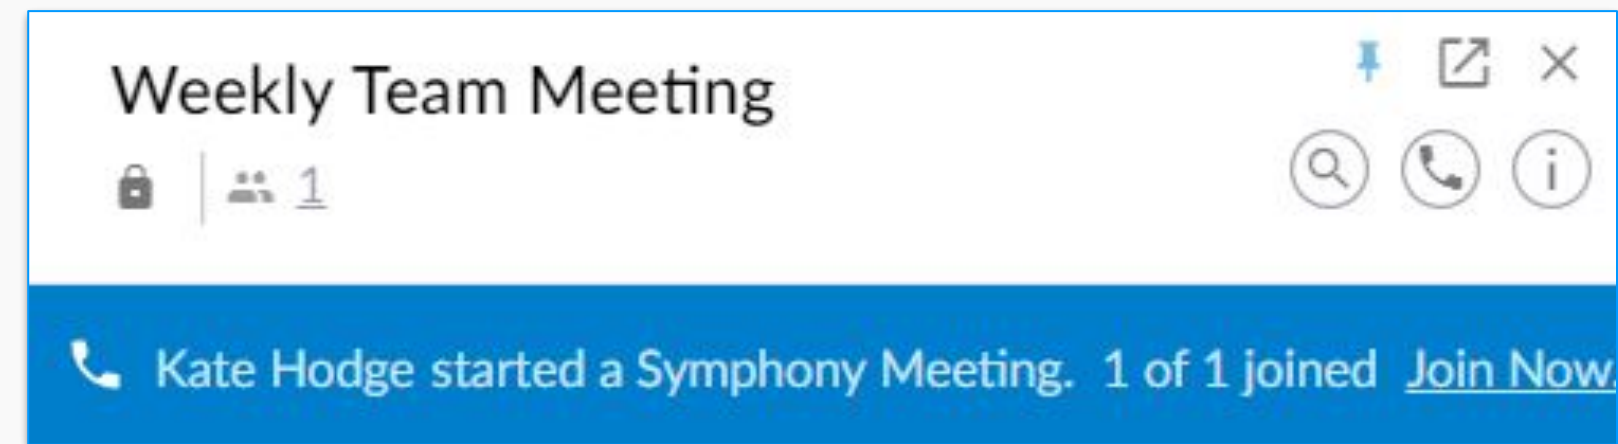

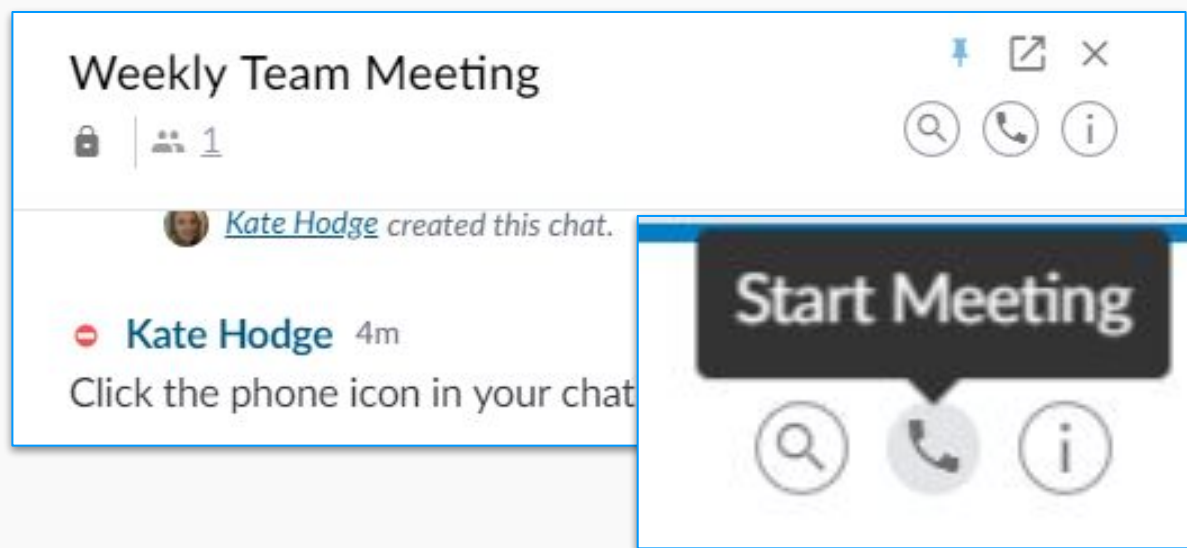

Start or join meetings on the **Symphony mobile app**

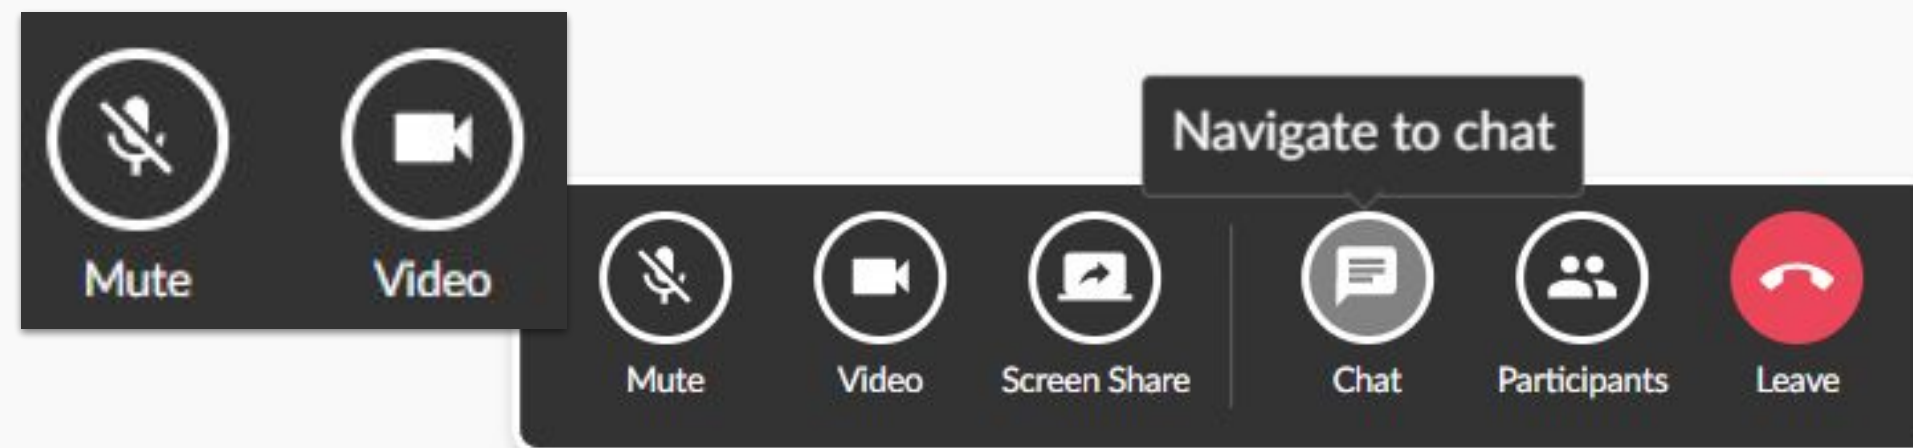

1-Click Start, Voice & Video

Click the **phone icon** to start a voice call

Easily toggle **from voice to video to chat** and manage the meeting using the control panel

Get Started With Symphony Meetings

Partner With Your Symphony Project Manager to Explore Meetings

- **Get a Video Demo:** See it in action
- **Technical Project Meeting:** Request a technical discussion. This deep dive discussion maps Meetings to your vision and requirements within your specific environment
- **Proof of Concept Deployment:** Plan to try it. We'll help you deploy Meetings to a specific test group with <50 users. Then, as a phased approach, you can roll out Meetings more broadly

Get Started

Get employees trained and provide them with resources to make your Meetings roll-out a success:

- **Live Training Webinars:** Run every Wednesday weekly for all time zones. Schedule and sign-up [here](#)
- **Online Resources:** Videos and how-to resources on meetings [here](#)
